# COMPANY PROFILE

Raven Int and Sy Ltd has nearly three decades of experience in consulting, training and assisting with the program management for a range of national and international clients with respect to their security, intelligence, operational support and training requirements.

Our business model, combined with our operational experience and technical insight, ensures that we are able to provide a high quality service at a significantly reduced cost compared to many other service providers.

All our services are supported by class leading technology manufacturers and industry proven software developers.

# ELECTRONIC WARFARE & INFORMATION OPERATIONS

Raven Int & Sy Ltd's expertise in the field of Electronic Warfare for Land, Air, Naval and government components, is derived from decades of operational & training delivery experience. We possess the very highest levels of operational and technical competency, regularly delivering a complex EW curriculum to UK and overseas organisations.

## CORE EW AND INFORMATION OPERATIONS TRAINING PROGRAM AND OPERATIONAL SUPPORT:

- EW Staff Officer training
- NATO EW operational & exercise planning
- Information Operations training & operational support
- Electronic Warfare (Comms) Operator training & operational support
- Electronic Warfare (Comms) Technical Analyst training & operational support
- Electronic Warfare (Non-Comms) Operator training & operational support
- Electronic Warfare (Non-Comms) Technical Analyst training & operational support

## SUPPLEMENTARY SERVICES:

- Remote Monitoring Sensor System design, installation, configuration & operation
- Tactical Field training and exercise planning
- Provision of EW databases (Comms & Non-Comms)
- EW Modelling & Simulation

(See Over)

- EW Engineering, Technical & IT support services
- Mission library configurations
- Mission profiling

# COUNTER REMOTE CONTROLLED IMPROVISED EXPLOSIVE DEVICE ELECTRONIC WARFARE (CREW)

In today's turbulent world, the threat posed by sophisticated Remotely Controlled Explosive Devices requires a range of technical and physical/operational countermeasures. The majority of technical equipment available to combat this threat, although technically credible, can be ineffective if the correct doctrine, training and practical application is not applied. Unskilled practice in this area of expertise presents not only a physical danger, but is also politically unacceptable in many theatres of operation.

Raven Int and Sy Ltd's CREW specialists have been instrumental in formulating, drafting and implementing doctrine and operational policy. Our CREW advisors have for years provided protection for Royal Logistics Corps EOD Ammunition Technical Officer (ATO), security forces and during VIP organised events worldwide.

## **CORE CREW TRAINING PROGRAM AND OPERATIONAL SUPPORT:**

- All Arms/Service CREW training & operational support
- CREW Officer training & operational support
- Threat analysis

# OPERATIONAL INTELLIGENCE

Intelligence, Surveillance, Target Acquisition and Reconnaissance data if poorly managed and developed, is of little or no use to the Command Staff, in the worst of cases such data can pose a real threat to friendly forces and the successful outcome of any operation. Raven Int and Sy Ltd has extensive experience in the direction, collection, processing of information and the dissemination of the intelligence product. We are equally experienced in advising on the protection of sensitive intelligence material and communications circuits. Raven Int and Sy Ltd delivers comprehensive training and consultancy, relating to all areas of intelligence management. We also specialise in providing asset protection training and support.

## CORE OPERATIONAL INTELLIGENCE TRAINING PROGRAM AND OPERATIONAL

### SUPPORT:

- Intelligence Management training and operational support
- Basic Operational Intelligence training and operational support
- Intelligence Analyst training and operational support
- Level 3 Intelligence Analyst qualification
- I2 Notebook training
- ArcGis Military Analyst training

# OPERATIONAL SECURITY

The loss of sensitive data, or the unintentional disclosure of operational capabilities, can have a significant effect on an organisations ability to conduct effective operations. Raven Int & Sy Ltd provide comprehensive training and consultancy services to ensure organisations are trained and equipped to protect their classified information and operational capabilities.

## CORE OPERATIONAL SECURITY TRAINING PROGRAM AND OPERATIONAL SUPPORT:

- Counter Intelligence training and operational support
- Counter Surveillance (Technical Measures) training and operational support
- Unit Security Officer training and operational support
- Branch Security Officer training and operational support
- Physical Security training and operational support
- Personnel Security training and operational support
- Classified Document Security training and operational support
- IT/Communications Circuits Security training and operational support
- Security Audits and operational support
- Security Investigations and operational support
- Cryptological material handling and accountancy training
- Covert Passive Surveillance (Foot, Mobile and Rural)
- Counter Surveillance and Surveillance Detection

# COMMUNICATIONS ENFORCEMENT & SECURITY

In many regions there is poor regulation and enforcement in terms of safeguarding the Radio Frequency Spectrum from intentional and unintentional abuse.

Raven Int and Sy Ltd has expertise in this highly specialised area and can advise on legislation, equipment, training and best practice in order to ensure that the radio spectrum is policed and maintained in order to prevent harmful disruption to safety of life and business services. Raven Int and Sy Ltd also conducts analysis of criminal and subversive use of communications infrastructures for the purpose of law and security enforcement.

## CORE COMMUNICATIONS ENFORCEMENT TRAINING PROGRAM AND OPERATIONAL SUPPORT:

- Communications Enforcement & Security overview
- Communications Legislation Framework training & operational support
- Communications Enforcement training & operational support
- Penetration testing
- Public Service Telephone Network and Cellular Network (Terrestrial & Non-Terrestrial) Monitoring, Analysis, Exploitation & Reporting training and operational support
- Cellular Forensics training & operational support
- Computer Forensics training & operational support

# COMMUNICATIONS TRAINING

Raven Int and Sy Ltd offers comprehensive Communications Training in terms of Communications Theory, Communications Operating Procedures and both Strategic and Battlefield C4I systems.

## CORE COMMUNICATIONS TRAINING PROGRAM AND OPERATIONAL SUPPORT:

- Strategic & Tactical Communications Systems overview
- Communications Operator training and operational support

## RAVEN INT & SY LTD PERSONNEL

Raven Int and Sy Ltd provides both serving and ex-military consultants (SO1 to Operator level) and instructional/support staff with the necessary knowledge, skills and experience in order to meet the demands of our clients.

Many of our representatives are currently providing support to multi-national operations and retain their operational and technical currency as well as their government security clearances as a result.

## SUMMARY

Raven Int and Sy Ltd delivers a comprehensive range of services within the Defence and Security domains.

We would be pleased to answer any questions you may have regarding your training and/or operational support requirements.

*Please note that prospective clients will be subject to screening and Her Majesty's Government approval and licensing/policy legislation.*
