COMPANY PROFILE:

Raven Int & Sy Ltd has nearly three decades of experience in consulting, training and assisting with the program management for a range of national and international clients in respect of their Electronic Warfare, Operational Security & Intelligence, Explosive Ordnance Remote Control Improvised Explosive Device protection, Communications Enforcement and Communications Training requirements.

Raven Int & Sy Ltd provides ex-military (security cleared - typically DV) consultants and instructional/support staff with the necessary knowledge, skills and experience in order to meet the demands of our clients. All our services are supported by class leading technology manufacturers and industry proven software developers.

Our business model, combined with our operational experience and technical insight, ensures that we are able to provide a high quality service at a significantly reduced cost compared to other service providers

ELECTRONIC WARFARE (EW):

Raven Int & Sy's expertise in the field of Communications (Comms) and Non-Communications (Non Comms) Electronic Support (ES), Electronic Attack (EA) and Electronic Protection (EP) is derived from decades of technical, operational and training exposure. Using new technologies and techniques, Raven Int & Sy Ltd are promoting new approaches in respect of Information Collection, Information Analysis and Communications Technical Analysis training which will enhance or improve the client's operational capabilities; clients will also benefit from significant cost savings.

CORE EW TRAINING PROGRAM:

- All Arms / Service (Officers) Communications and Non Communications Electronic Warfare Training
- All Arms / Service (other ranks) Communications and Non Communications Electronic Warfare Training

COMMUNICATIONS ELECTRONIC WARFARE:

- Electronic Warfare (Comms) Operational Training
- Electronic Warfare (Comms) Technical Analyst Training

NON COMMUNICATIONS ELECTRONIC WARFARE:

- Electronic Warfare (Non-Comms) Operational Training
- Electronic Warfare (Non-Comms) Technical Analyst Training

EOD RCIED ECM:

EXPLOSIVE ORDNANCE DISPOSAL - RADIO CONTROLLED IMPROVISED EXPLOSIVE DEVICES - ELECTRONIC COUNTER MEASURES

In today's turbulent world, the threat posed by sophisticated RCIED's requires a range of technical countermeasures. The majority of equipment available to combat this threat, although technically credible, can be ineffective if the correct doctrine, training and practical application is not applied. Unskilled practice in the field of EOD RCIED ECM presents not only a physical danger, but is also politically unacceptable in many theatres of operation.

Raven Int & Sy Ltd's RCIED specialists have been instrumental in formulating, drafting and implementing doctrine and operational policy. Our EOD ECM advisors have for years provided protection for Royal Logistics Corps EOD Ammunition Technical Officer (ATO), security forces and during VIP organised events worldwide.

Note: Alternative terminology in respect of the response to the threat presented by Radio/Remote Improvised Explosive Devices - Counter Remote Control Improvised Explosive Device (RCIED) Electronic Warfare (CREW)

CORE EOD RCIED ECM TRAINING PROGRAM:

- All Arms/Service EOD RCIED ECM Overview
- EOD RCIED ECM Officer Training

OPERATIONAL INTELLIGENCE & SECURITY:

Intelligence, Surveillance, Target Acquisition and Reconnaissance data if poorly managed and developed, is of little or no use to the Command Staff, in the worst of cases such data can pose a real threat to friendly forces and the successful outcome of any operation. Raven Int & Sy has extensive experience in the direction, collection, processing of information and the dissemination of the intelligence product. We are equally experienced in advising on the protection of sensitive intelligence material and communications circuits. Raven Int & Sy delivers comprehensive training and consultancy, relating to all areas of intelligence management. We also specialise in providing asset protection training and support.

CORE OPERATIONAL INTELLIGENCE & SECURITY TRAINING PROGRAM:

- Deployment Operational Security Training
- Operational Security Training
- Intelligence Analyst Training
- Asset Protection Training

COMMUNICATIONS ENFORCEMENT - RADIO FREQUENCY SPECTRUM:

In many global regions there is poor regulation and enforcement in terms of safeguarding the Radio Frequency Spectrum from intentional and unintentional abuse.

Raven Int & Sy Ltd has expertise in this highly specialised area and can advise on legislation, equipment, training and best practice in order to ensure that the radio spectrum is policed and maintained in order to prevent harmful disruption to safety of life and business services.

CORE COMMUNICATIONS ENFORCEMENT TRAINING PROGRAM:

- Communications Enforcement Overview
- Communications Legislation Framework Training
- Communications Enforcement Training

COMMUNICATIONS TRAINING:

Raven Int & Sy Ltd offers comprehensive Communications Training in terms of Communications Theory, Communications Operating Procedures and Battlefield C2 and C4I systems.

CORE COMMUNICATIONS TRAINING PROGRAM:

- Strategic & Tactical Communications Systems Overview
- Communications Operator Training

RAVEN INT & SY LTD PERSONNEL:

The personnel representing Raven Int & Sy Ltd are all highly qualified and experienced Subject Matter Experts within their disciplines.

Many of our representatives are currently providing support to multi-national operations and retain their operational and technical currency as well as their Developed Vetting status as a result.

SUMMARY:

Raven Int & Sy Ltd delivers a comprehensive range of provision within the Electronic Warfare, Operational Security and Communications domains as specified above.

We would be pleased to answer any questions you may have regarding your training and/or operational support requirements.

Please note that prospective clients will be subject to screening and Her Majesty's Government approval and licensing/policy legislation.
